Action when a child has suffered or is likely to suffer harm

Sharing / recording concerns

An individual with concerns about a child records these and shares these with the designated safeguarding lead who is **Hollie Danby** or the deputy DSGO's who are **Liz Clarkson** and **Jon Oliver**, as soon as possible.

Consideration

The DSL will consider the information, in the context of any other concerns / disclosures, and decide on next steps. Where possible this should be done in consultation with others in the safeguarding team.

Parents / carers should be involved at this stage, **unless to do so may place the child at increased risk of significant harm, in which case advice should be sought from Family Contact Point.**

Referral to children's social care

The DSL will make a telephone referral in the first instance to Swindon MASH on 01793 466903.

Emergency duty service
01793 436699

This must be followed up within 24 hours with a written referral, using form RF1. The RF1 form must be signed and dated by the referrer.

No referral to children's social care

Actions will be agreed to monitor the child and support the child / family where needed.

An Early Help Record and Plan (EHRP) should also be considered at this stage.

Children's social care consideration

Children's social care decides within 1 working day what action will be taken, including if an assessment is needed and **feedback to the referrer**. This decision will be made using the Swindon LSCB threshold document.

Assessment

Children's social care completes the assessment within 45 working days of the referral; it could be a section 17 or section 47 assessment. All schools and colleges should allow local authorities access to facilitate arrangements.

No Assessment

If the information supplied in the referral does not meet the threshold, an EHRP should be started and/or onward referral to other specialist or universal services; **children's social care will feedback to the referrer.**

In exceptional circumstances the individual with concerns may refer to children's social care directly – where the DSL / deputy DSL is not available, the individual should not delay until they become available.

Referrals for Alleged Perpetrators of Sexual Abuse – Where a pupil is being investigated by the police for allegedly committing sexual offences, and the police have said they will make a referral to Social Care, the school will still telephone Swindon MASH without delay to raise awareness of the concerns relating to the alleged perpetrator. Swindon MASH will advise whether or not an RF1 needs to be completed by the school.

Record Keeping

- 2.0 Any member of staff, volunteer or visitor receiving a disclosure of abuse, or noticing possible abuse, must:-
- Make an accurate record as soon as possible, noting what was said or seen, putting the event into context, and giving the full date, time and location. (where possible this will be recorded onto appendix 1 – concern / disclosure form)
 - Where staff have observed injuries to a child, these will be recorded on a body map outline, with some indication given about the size of the injury. **Staff will not take photographs of injuries.**
 - The concern / disclosure must be discussed with the designated safeguarding lead as soon as possible.
 - All hand-written records must be retained, even if they are subsequently written up onto a concern/disclosure form.
- 2.1 Written records of concerns about children must be kept, even where there is no need to make a referral immediately.
- 2.2 All records relating to child protection concerns will be kept in a secure place and will remain confidential. They do not form part of the pupil's educational records and must be kept separate from other records.
- 2.3 A chronology will be kept at the front of individual pupils' files, which is reviewed and updated whenever a new concern is raised or additional relevant information becomes available, **noting actions and outcomes.**
- Significant events, for example a Team Around the Child (TAC), Strategy or child protection conference should also be noted on the chronology.
- 2.4 The quality of Child Protection records will be monitored by the Principal. The schedule for this quality assurance will take place at least annually.

- 2.5 Where a child moves school, the safeguarding/child protection documentation will be passed immediately and confidentially to the receiving school/college, separate from general records. Where possible the DSL will arrange to meet with the DSL from the receiving school/college to discuss the safeguarding/child protection information in more detail. The receiving school will be asked to sign to confirm that the transfer has taken place successfully and this signed record will be kept on file. Where a pupil is transferring into our college a request for information will be sent to the previous school/college if there is no evidence of a safeguarding/child protection file, when records are received. This will prompt the previous school to check whether any safeguarding/child protection records exist.
- 2.6 Confidentiality must be maintained and information relating to individual pupils/families shared with staff on a strictly need to know basis.
- 2.7 Joint investigation procedures – for guidance on the joint investigations (appendix 2)
- 2.8 There are occasions when children services will contact UTC Swindon and request a phone number for a parent or carer. The caller's identity should be verified before releasing this information and the college should confirm with social care whether or not the family should be informed about the request.

Alleged Abuse by Staff

If you become aware that a member of staff may have:

- **behaved in a way that has harmed, or may have harmed a child or**
- **possibly committed a criminal offence against or related to a child**

01793 466849

Within one working day

The LADO will decide on further action:

- No further action after initial consideration and closure, or
- Advice and follow up from LADO, or
- Strategy Discussion

No further action by the LADO the College may be asked to complete their own enquiries and report the findings back to the LA at the conclusion.

Further action - The LADO will agree with the police whether or not a strategy meeting (police involvement) or an allegations meeting needs to take place.

If a strategy discussion is not required, an **allegations management meeting** may be held. The main purpose of this is to ensure the safety of the child/ren and ensure the process is concluded promptly, ensuring the accused staff member has adequate support.

Allegations strategy discussion

This will take place if the child has suffered significant harm / is at risk of suffering significant harm, or if the alleged behaviour may constitute a criminal offence related to the child.

The Principal / Chair of Governors will be invited to these meetings.

Appendix 4 - Types of abuse and neglect (Taken from Keeping Children safe In Education (Sept 2016))

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of

clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Child Sexual Exploitation: is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage of increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact, it can occur through the use of technology.
